CHAITANYA YADAV
STUDENT

Summary

I am 2nd year undergraduate student at Indian Institute of Information Technology, Allahabad. I am full stack Ruby on Rails developer. I love entrepreneurship and web development. I have my own startup called **BitNotes** built using Ruby on Rails. Strive to build software that is as structurally, semantically and aesthetically cohesive as it is intuitive for the user.

Projects

BitNotes

Ruby on Rails, **Amazon S3**, **Digital Ocean**, **ImageMagick**, **Ajax**, **Jquery, Javascript**

BitNotes is platform for sharing Educational content such as Practicals, Assignments, Papers, Notes. BitNotes strives to open source Education and make it accessible to all without free of cost. Working as CEO and full stack developer at BitNotes.

Dock-Assistant(University of Texas)

Ruby on Rails, Jquery, HTML, CSS

Dock-Assistant is a 7th-semester project of the University of Texas. I worked remotely for my client to help her with an implementation of a project idea. Dock assistant keeps tracks of ships, vendors, workers etc on the dock. Generates report and workers pay for scheduled time period.

Movie Review App

Ruby on Rails, ImageMagick, Jquery, HTML, CSS

Movie Review is site for listing latest movie's review. You can rate the movie using star system. You can even search the movies. Elastic Search is implemented for search. Authentication system is build for securing your reviews.

Pinterest-Clone

Ruby on Rails, **Ajax**, **Jquery, HTML, CSS**

Pinterest-Clone is rails site with features of Pinterest. Authentication system is build for securing your pins. You can create pins, edit, update and destroy them. Like system is built for taking public response.

Reddit-Clone

Ruby on Rails, **ImageMagick**, **Ajax**, **Jquery, HTML, CSS**

Reddit-Clone is clone of actual Reddit. Authentication system is build for securing your shared Links. You can create, edit, update and destroy the Links. You can upvote and downvote any submitted Links.
